

# BENEFITS OF RENTERS INSURANCE

## Protects the contents in your home

Your landlord's insurance doesn't protect your belongings. You will need your own rental insurance to protect all your belongings in your home.

## Coverage for additional living expenses

Should your apartment or home become unlivable, additional living expenses may be covered under your policy, including accommodation, food, etc. Check your policy for additional details and coverage limits.

## WHERE TO GET RENTERS INSURANCE

If you are not sure where to get renters insurance, here is a list of companies to get you started:

Shelter

Liberty Mutual

Allstate

Esurance

Progressive

Geico

AAA Motor Club

State Farm

Another option is to check with the company that provides your auto insurance.

**Bottom line:** Renters insurance is important for liability protection as well as to protect your assets, for a very low cost. Give yourself peace of mind and get renters insurance.

We do not require renter's insurance but suggest our tenants look into the benefits and make a decision on whether or not they would like to purchase.
